FAIZ DICE GAMES PRESENTS

Dice Cricket King Rule Book

Two dice, four master sheets, three grounds and one deck of cards. Every ball is decided by the dice — every decision is yours.

1 What you need

Dice & sheets

- **Red die** = row **A–F**, **blue die** = column **1–6**.
- 4 master sheets for each ground: Master Bowling, Master Batting, Powerplay & Slog Bowling, Powerplay & Slog Batting.

Cards (87)

- Wickets 25 · Runs 16 · Fielding 20 · Skills 20.
- Power cards 6: 2 Reroll, 2 Wonderful Shot, 2 Great Delivery.

2 Formats

Format	Players	All out at	Bowling limit	Powerplay	Slog
5 overs	7 a side	6 wickets	2 bowlers may bowl 2 overs, the rest 1	Over 1	Over 5
10 overs	11 a side	10 wickets	Max 2 overs each	Overs 1–2	Overs 9–10

All other overs are the **Middle overs**. No bowler bowls two overs in a row.

Grounds & match setup

3 The three grounds

The whole match uses the chosen ground's four sheets. Sheets are coloured by ground.

HSG
HIGH SCORING GROUND

5 overs: about **90** runs
usual range 75–110

10 overs: about **197** runs
usual range 170–225

NSG
NORMAL SCORING GROUND

5 overs: about **68** runs
usual range 56–80

10 overs: about **150** runs
usual range 130–170

LSG
LOW SCORING GROUND

5 overs: about **42** runs
usual range 30–54

10 overs: about **95** runs
usual range 75–115

What changes on each ground?

- **HSG** (red sheets): very few dots, fewer wickets, many more 4s and 6s.
- **NSG** (green sheets): the normal game — the balance the sheets were built on.
- **LSG** (yellow sheets): many dots, more wickets, boundaries are hard to find.
- The **rules never change** — only the numbers inside the sheets.

4 Starting a match

Choose the **ground** → do the **toss** → pick each **Playing XI** (7 or 11), the **batting order** and the **captain**. The toss winner bats or bowls first.

Beginner mistakes to avoid: reading the wrong line · forgetting row F · bowling a spinner in the Powerplay · using the DB before the Slog · sending the Finisher in too late.

Your first match · step by step

New to the game? Follow these steps in order. Each step tells you **what to do** and **why**.

1. **Choose format and ground.** Start with **5 overs on NSG** — short, normal scoring, easy to learn.
2. **Pick your squad** (7 or 11) using the **balanced team plan** on the last page: openers, a Star, a keeper, a Finisher, all-rounders and real bowlers with a death bowler (DB).
3. **Set the batting order.** Openers (O) at 1–2, your best batsmen next, all-rounders in the middle, the **Finisher at 5–6**, bowlers last.
4. **Pick the captain.** A BW/BWAL captain brings a **Great Delivery**; a BAT/BTBW/BTAL/WK captain brings a **Wonderful Shot**. Both get one **Reroll**.
5. **Toss.** The winner chooses to bat or bowl first.
6. **Plan your bowling before the first ball.** Pacers in the Powerplay, spinners and all-rounders in the middle, the **DB in the Slog**. Nobody bowls two overs in a row.
7. **Play each ball:** bowling roll → result → batting roll if it says **Ball**. Read **only your line**; a FOR ALL cell is the same for everyone.
8. **On a wicket** draw the Wicket card, then Fielding and Skills cards if a fielder is involved. On an extra, draw a Runs card.
9. **Watch the triggers:** a Star past his runs, the Slog overs starting (Finisher, DB), a BW batsman coming in.
10. **Use power cards** only on your captain's own roll, straight after the roll — before anything else happens.

Playing a ball

5 Every ball in three steps

1 · Bowling roll

Roll both dice on the **bowling sheet**. Read only the line that applies.

→

2 · Result

0 dot ball · X wicket card · + extra: take a Runs card · **Ball**: go to step 3.

→

3 · Batting roll

Roll again on the **batting sheet**: 0 1 2 3 4 6 runs or X wicket card.

6 Which bowling line?

Middle overs · Master Bowling

Bowler type × batsman on strike:

Bowler ↓	v BW	v BWAL	v BTAL/WK	v BAT/BTBW
BW (bowler)	BWD3	BWD2	BWD1	EQ
BWAL	BWD2	BWD1	EQ	BTD1
BTAL	BWD1	EQ	BTD1	BTD2
BTBW	EQ	BTD1	BTD2	BTD3

Row F follows the **bowling team's stars** (5★ / 4★ / 3★).

Player types

- **BW** — bowler
- **BWAL** — bowling all-rounder
- **BTAL** — batting all-rounder
- **BTBW** — batsman who bowls a little
- **BAT** — batsman · **WK** — wicket-keeper

Powerplay & Slog · 5 lines

- **PWP: PC** — pacer in the Powerplay
- **PWP: SP** — spinner in the Powerplay
- **SLG: PC** — pacer in the Slog
- **SLG: SP** — spinner in the Slog
- **SLG: DB** — a death bowler (DB) in the Slog, pacer or spinner

Row F follows the **bowling style** (LF/LFM · RF/RFM · RM/LM · RO/RL · LO/LC): a dot, a ball, or the way the batsman is out (short forms on page 6).

Spinners: RO · RL · LO · LC. Pacers: RF · RFM · RM · LF · LFM · LM.

Stars only touch row F. The domination line comes from player types alone. A 5★ bowling team simply gets kinder results on row F of Master Bowling. On every sheet, **row F is printed in purple** so it stands out.

Batting lines

7 Which batting line?

Middle overs · Master Batting

- ★ **Star** past his listed runs → **HS/★**
- **BWAL or BW** batsman → **BWAL/BW**
- Everyone else → **HS, NS or LS** from the grid:

Bowler	v RHB	v LHB
RF	NS	LS
LF	LS	NS
RFM	NS	LS
LFM	LS	NS
RM	HS/★	NS
LM	NS	HS/★
RO	HS/★	LS
LO	LS	HS/★
RL	LS	HS/★
LC	HS/★	LS

Row F follows the **bowler's type** (v BW · v BWAL · v BTAL · v BTBW).

Powerplay & Slog Batting

- **PWPO** — openers (O) in the Powerplay
- **PWPR** — everyone else in the Powerplay
- **SLG F** — the one Finisher in the Slog
- **SLG R** — everyone else in the Slog
- **BW** — a BW batsman, in any of these overs

Row F follows the batsman: ★ (Star) · BW · BWAL · Rest.

Cards

- X **Wicket card** says how he is out. A catch, run-out or stumping draws a **Fielding card** (who) and a **Skills card** (taken or missed).
- A missed chance draws a **Runs card**.
- \+ **Extra** draws a **Runs card**: wide, no-ball, bye or leg-bye. A no-ball gives a **Free Hit**.

8 Reading a cell — example

Middle overs. A **RHB** faces an **RF** bowler, so he reads the **NS** line. Dice: **red 2**, **blue 4** → cell **B4**. The cell lists HS/★, NS, LS and BWAL/BW — he reads only **NS**.

A big single result marked **FOR ALL** is the same for every line. On **row F** read the entry for the bowler's type (batting) or the bowling team's stars (bowling).

Power cards & wicket codes

9 Power cards · captains only

Reroll ×2
One per captain. Cancel his **own** roll and roll again — both dice, or only the red or only the blue (**Half Reroll**).

Wonderful Shot ×2
BAT / BTBW / BTAL / WK captain, on strike. Cancel the batting roll and roll the card: **30 of 36** are 4 or 6, no wicket.

Great Delivery ×2
BW / BWAL captain, while bowling. Cancel the bowling roll and roll the card: **22 of 36** are wickets.

Play a card straight after the roll, before anything else. A team never rerolls the other team's roll.

Using power cards well

- **Reroll** a wicket card result first — a lost wicket hurts more than a missed boundary.
- **Great Delivery** is best against a set Star or the Finisher in the Slog.
- **Wonderful Shot** is worth most in the last over of a chase.

Card	Best moment	Don't waste it on
Reroll	A wicket card result on the captain's own roll	A dot ball early in the innings
Wonderful Shot	The last over of a close chase	A roll that already gave 4 or 6
Great Delivery	A set Star, or the Finisher in the Slog	A tail-ender who is already struggling

Wicket short forms (row F of Powerplay & Slog Bowling)

Short	Meaning	Short	Meaning
BLD	Bowled	C&B	Caught & bowled
LBW	Leg before wicket	ST	Stumped
CT	Caught	R/O	Run out
CB	Caught behind	HW	Hit wicket

A wicket on row F — no Wicket card. The cell already says how he is out.

- **BLD, LBW, HW** — out straight away.
- **CB, ST** (keeper) and **C&B** (bowler) — the fielder is already known: draw only a **Skills card** for him (taken or missed).
- **CT, R/O** — draw a **Fielding card** for the fielder, then a **Skills card**.

Special rules

10 Special rules

Finisher (F)

Only **one** F batsman is the Finisher, and only in the **Slog**. Before the Slog he bats by his normal type.

Death bowler (DB)

In the Slog a DB reads the **SLG: DB** line — more dots and wickets than any other bowler.

Star ★

Once a Star passes his listed runs he reads **HS/★** in the middle overs and ★ on row F in the Powerplay and Slog.

Review (DRS)

Batting captain given out LBW or caught behind may spend his Reroll: one die, **5–6 = not out** (dot ball).

Super Over

A tie: 3 batsmen and 1 bowler each, one over, **Slog sheets**, 2 wickets end it. Tied again? Play another.

Team stars move

Stars follow win % in each format: rank 1–4 = 5★, 5–8 = 4★, 9–10 = 3★. They are fixed at the start of each match.

Death bowlers (DB) by team

Team	DB	Team	DB
AUS	Victor · Abhay	BAN	Ashish
SL	Milindu · Naveen	ENG	Eric
PAK	Huzaifa · Faizan	SA	Teboho
IND	Ojas · Javed	NZ	Ibrahim
AFG	Taimur	WI	Mohammad

Ground analysis

11 What the sheets give

Each cell: **runs per over** · balls per wicket, worked out from the sheets (an extra counted as 1 run, every X as out).

Situation	HSG	NSG	LSG
Middle: equal contest	**23** · 15	**17** · 16	**11** · 17
Middle: bowler on top, hard matchup	**17** · 16	**6** · 6	**3** · 6
Middle: batsman on top / star	**26** · 14	**24** · 14	**18** · 15
Middle: tail-ender batting	**13** · 8	**11** · 7	**6** · 8
Powerplay: pacer v opener	**23** · 16	**20** · 10	**15** · 11
Powerplay: spinner v opener	**25** · 15	**24** · 15	**18** · 16
Slog: pacer v finisher	**24** · 11	**20** · 7	**15** · 7
Slog: spinner v finisher	**25** · 10	**23** · 6	**17** · 7
Slog: death bowler v finisher	**21** · 12	**18** · 7	**13** · 8
Slog: death bowler v other batsman	**20** · 17	**18** · 9	**12** · 9
Average innings · 5 / 10 overs	**98 / 194**	**75 / 147**	**49 / 96**

12 Batting lines

Each cell: **runs per batting roll** · chance of a 4 or 6 (rows A–E).

Line	HSG	NSG	LSG
HS/★ (Middle)	**4.4** · 83%	**4.1** · 77%	**3.5** · 60%
NS (Middle)	**4.0** · 73%	**3.7** · 67%	**2.5** · 40%
LS (Middle)	**3.3** · 60%	**2.8** · 47%	**1.6** · 20%
BWAL/BW (Middle)	**2.3** · 40%	**2.4** · 40%	**1.3** · 17%
PWPO (PP & Slog)	**4.5** · 83%	**4.2** · 77%	**3.5** · 60%
PWPR (PP & Slog)	**4.4** · 83%	**4.0** · 73%	**3.1** · 53%
SLG F (PP & Slog)	**4.7** · 80%	**4.3** · 77%	**3.5** · 60%
SLG R (PP & Slog)	**4.4** · 83%	**4.2** · 77%	**3.2** · 53%
BW (PP & Slog)	**2.8** · 47%	**2.8** · 50%	**1.7** · 27%

Bowling lines & game plan

13 Bowling lines

Each cell: **dot %** · wicket % on the bowling roll (rows A–E).

Line	HSG	NSG	LSG
BWD3	**13%** · 3%	**47%** · 13%	**50%** · 13%
EQ	**3%** · 3%	**20%** · 3%	**27%** · 3%
BTD3	**3%** · 3%	**3%** · 3%	**10%** · 3%
PWP: PC	**13%** · 3%	**13%** · 7%	**20%** · 7%
PWP: SP	**7%** · 3%	**3%** · 3%	**10%** · 3%
SLG: PC	**10%** · 3%	**17%** · 7%	**23%** · 7%
SLG: SP	**7%** · 3%	**7%** · 7%	**13%** · 7%
SLG: DB	**20%** · 3%	**23%** · 7%	**30%** · 7%

What the table shows

- The **SLG: DB** line has the most dots on every ground — 20% on HSG, 23% on NSG, 30% on LSG (rows A–E).
- A **spinner in the Powerplay** (PWP: SP) gives very few dots — as low as 3% on NSG.
- From **BWD3 to BTD3** the dots on NSG fall from 47% to 3% — domination is the biggest swing in the game.

14 Game plan by ground

HSG

Runs come easily — attack from ball one. Bowl your **BW bowlers** and the **DB**: they are the only brakes.

NSG

Balanced. Win the **matchups**: the right bowler to the right batsman is worth 10 runs an over.

LSG

Wickets fall fast. **Keep wickets in hand;** 90 in 10 overs is a good score.

© 2026 Tanweer · Faiz Dice Games · All rights reserved · Not to be copied, reproduced, shared or sold without written permission

15 Strategy

- **Open with pacers.** A spinner in the Powerplay costs about **2–4 runs more per over** on every ground.
- **Keep the death bowler for the Slog.** He saves about **1.5–3 runs an over** against a Finisher and gives the most dots. In 10 overs he can't bowl overs 9 and 10 both — a second DB covers the other.
- **Domination decides the middle overs.** On NSG a BW bowling to a weak matchup gives about **6** an over; a BTBW bowler to a set Star gives about **24**. Bowl your BW bowlers at the top order.
- **Turn the ball away.** Use the matchup grid: an LS line for the batsman can halve his scoring.
- **Time your Finisher.** Have the F batsman at the crease when the Slog starts — SLG F is the best batting line in the Slog.
- **Protect the tail in the Powerplay and Slog.** A BW batsman there falls about every 4–6 balls.
- **Read the ground.** HSG: wickets are rare, so attack from the first ball. LSG: every wicket counts — a slow start is normal.

16 More smart moves

- **Choose the captain for your plan.** A BW/BWAL captain brings a Great Delivery for tight games; a batting captain's Wonderful Shot wins chases.
- **Attack the Star early.** Until he passes his listed runs he is a normal batsman — bowl your best BW bowler at him.
- **7-a-side:** only 6 wickets, so one bad over can end the innings. Keep the Finisher for over 5.
- **Stars live on row F.** A 5★ bowling side gets more dots and wickets on row F of Master Bowling.

© 2026 Tanweer · Faiz Dice Games · All rights reserved · Not to be copied, reproduced, shared or sold without written permission

Building a balanced team

A balanced side needs **enough bowling** to cover every over, **batting depth**, a **keeper**, a **Finisher** and a **death bowler**.

10 overs · Playing 11

No.	Role
1–2	Openers (O) — BAT / BTBW
3	Star ★ batsman
4	BAT / BTBW batsman
5	Wicket-keeper (WK)
6	Finisher (F)
7	BTAL all-rounder
8–9	BWAL all-rounders
10–11	BW bowlers · at least one DB

5–6 bowlers (max 2 overs each, 10 overs). At least **3 pacers** and **1–2 spinners**. Two DBs cover overs 9 and 10.

5 overs · Playing 7

No.	Role
1	Opener (O)
2	Star ★ or BAT batsman
3	Wicket-keeper (WK)
4	Finisher (F) — best if he also bowls
5	BTAL all-rounder
6	BWAL all-rounder
7	BW death bowler (DB)

At least **3 bowlers**: two bowl 2 overs, one bowls 1. A 4th bowling option is a safe extra.

17 Over-by-over bowling plan

Format	Powerplay	Middle	Slog
5 overs	Ov 1: BWAL pacer	Ov 2: BTAL · Ov 3: DB · Ov 4: BWAL	Ov 5: DB
10 overs	Ov 1–2: two pacers	Ov 3–8: spinners, BWAL, BTAL — BW at the top order	Ov 9: DB 1 · Ov 10: DB 2

- **Bowlers decide domination.** A BW bowling to a BAT gives **EQ**; a BTBW bowling to a BAT gives **BTD3** — the worst line for the bowler.
- **Depth wins short games.** In 7-a-side the 6th wicket ends the innings — every extra batsman who can hit matters.
- **Never pick two keepers** unless one bats in the top order.
